

Circus Pedagogy: Make School A Circus

Circus skills develop core strength, enhance self-esteem and improve coordination, memory and attention span. With outcomes that fit neatly into the ACARA and Curriculum Framework for subjects in the arts, health and physical education, CircusWA workshops are a great way to encourage teamwork and artistic expression in an inclusive and non-competitive environment.

HOW CAN CIRCUSWA FIT INTO MY TEACHING PROGRAM?

EARLY YEARS LEARNING FRAMEWORK

Outcome 4: Students are confident and involved learners.

Circus gives children the confidence to experiment and explore and to try out new ideas, thus developing their competence and becoming active and involved participants in learning.

ACARA

Workshops meet the requirements of the Australian Curriculum's Guiding Principles of Student Diversity with classes and workshops inclusive of students' individual strengths and needs.

CURRICULUM FRAMEWORK FOR ARTS, HEALTH & PHYSICAL EDUCATION

Arts Skills and Processes - Students combine learned skills and techniques to create performance pieces.

Interpersonal Skills - Students develop team building and interpersonal skills with their peers in a fun, challenging and safe environment

Self-Management Skills - Students are encouraged to make informed decisions about being self-challenged by setting goals for their own improvement.
